INTERNATIONAL FAIR OF NEW TECHNOLOGIES IN DIABETES

ATTD 2024 Tech Fair is the place where start-ups and emerging companies will be displaying cutting-edge technologies and medical devices for diabetes treatment. Join us in Florence, Italy for an exciting competition, a brand-new workshop and an enhanced Tech Fair. Be at the forefront of this constantly evolving discipline.

Coming soon!

Start-up Competition and Workshop for Start-ups

[Look out for more details on the ATTD website.](#)

The International Fair of New Technologies Diabetes will open a venue to:

- 1** Gather researchers from the academic world, key opinion leaders and fellow inventors who are keen to learn about new Research and Development findings enabling them to exchange views and ideas.
- 2** Link new inventions to potential industrial companies in the field or investors interested in funding for further development or commercialization of inventions or products.
- 3** Draw the attention of entrepreneurs, venture capital companies and put inventions, designs, and products in the limelight.
- 4** Create opportunities for network building between international inventors and scientists worldwide to maximize the exposure

Take your invention to the next level!

Benefit from presenting your innovations to experts as well as prospective clients:

Join key opinion leaders and fellow inventors as they discuss the latest R&D findings.

Gain access to leading companies and investors interested in funding the next major invention.

Introduce your work to entrepreneurs, whose venture capital can turn your idea into a reality.

Network with inventors and scientists from all over the world.

Maximize exposure for products and technologies by presenting them to a global audience.
